

CPSC 210 Observer

Lecture/Lab

We want to add functionality to `SpaceInvadersRefactored` to print to the console when an invader is hit by a missile.

1. Consider how to implement this functionality. You should look at the Java API for `Observable` and `Observer`. Where will you make the changes? Draw a UML class diagram that includes your changes. Once everyone has had a chance to work on this, we'll go over the diagram on the board.
2. Implement the new functionality.
